

**MORE** THAN  
WHAT **YOU**  
**SEE**

# More than what you see

Very often we are limited by what we see, though there is always more that meets the eye. Never judge data by its appearance...

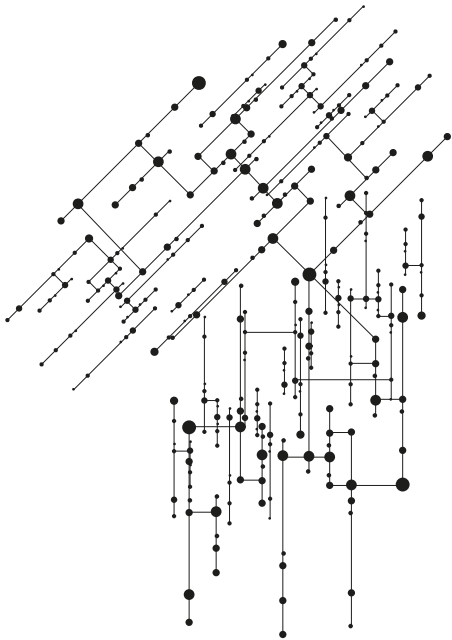

The ability to take mere data and transform it into insightful and actionable intelligence is the expertise we have built at **Nuvento since its inception in 2007**. We are a fast growing boutique company providing agile solutions and services in Business Intelligence, complemented with a sound practice in Quality Assurance and Software Architecture. Our key focus is to offer contemporary and up-to-date technologies and practices that transform businesses.

Nuvento's end-to-end solutions and services meet every requirement such as size, scale and scope.

- **Consulting services** – Complete assessment, strategic advice and future roadmaps for the technology platforms used by any enterprise.
- **Managed services** – Onsite and remote assistance in managing an organization's technology systems, applications, sourcing.
- **Specialized services** – Customized and high-end services to help clients to their specific needs and strategic objectives, enabling them to stay ahead of the curve.

## The Nuvento Advantage

- **Intellectual property**  
At Nuvento, we innovate our own products. The intellectual property built ensures businesses can benefit from solutions that are, customized, sustainable and easy to implement. This also allows us to develop prototypes for smaller projects and operations that provide you quick and immediate benefits.
- **Research and development**  
Our continuous focus and investment in research and development (R&D), gives our clients the competitive edge to respond to future technologies, market trends and business environments.
- **Global and cost efficient delivery model**  
Nuvento offers an extensive range of deployment models such as software-as-a-service (SaaS), deployment at client location and Cloud services. Our cost efficient model enables the delivery of seamless solutions at an unmatched speed of execution.
- **Cloud infrastructure**  
Nuvento has the capability to support organizations that are quickly adopting the new technology of "Cloud." Our Cloud infrastructure is easy to adopt, scalable and adheres to industry security and compliance standards.

## Why Nuvento

- A fully mobilized team of seasoned professionals with strong industry experience and domain expertise in banking and financial services. Ongoing R&D on other important industries such as telecom and retail.
- Headquartered in Lenexa Kansas, with 24x7 operations center in Bangalore and Thrissur, India.
- Manage and comply with client's security standards by implementing industry best practices and risk frameworks.
- Best-in-class global partnerships with industry leaders such as IBM, Microsoft, Oracle, Qlikview and RapidMiner.
- Strong client base across North America and Asia Pacific that includes some of the leading insurance, banking, financial and technology companies in the region.

# Business Intelligence (BI)

## - insights to success

Your enterprise needs the right information to make the right decisions - at the right time. Nuvento's Business Intelligence solutions enable you to do that -- to extract intelligent information from large amounts of organizational data so that you can capitalize on the multiple opportunities.

Our Business Intelligence expertise, consulting, process engineering, technology and quality assurance give you a complete experience.

Consulting services	Managed services	Specialized services
<ul style="list-style-type: none"> <li>• Technology and Tool Assessment Services for BI implementations</li> <li>• BI implementation and Roadmap Services</li> <li>• Data Governance Roadmaps and Assessment Services</li> <li>• Architecture and framework based implementations</li> </ul>	<ul style="list-style-type: none"> <li>• Outsourced Data Maintenance Services</li> <li>• Data Monitoring Services</li> <li>• On Demand Reporting Services</li> <li>• Report Outsourcing Services</li> <li>• Remote DBA Services</li> <li>• Technical Support Services</li> <li>• Project Management Services</li> </ul>	<ul style="list-style-type: none"> <li>• Balanced Scorecards and Strategy Maps</li> <li>• Performance Management Systems and Scorecards</li> <li>• Self Service Report Portals</li> <li>• Analytics Portals</li> <li>• Report development and deployment services</li> <li>• BI /Data Warehousing implementation</li> <li>• Advanced Analytics Services</li> </ul>

### Technologies supported

- Microsoft (SharePoint 2010, SQL Server Analysis Services, SQL Server Integration Services, SQL Server Reporting Services)
- Oracle (OBIEE 11, Hyperion Essbase)
- IBM (Cognos)
- QlikView

### BI's Centre of Excellence

Nuvento's deep industry experience in Business Intelligence has established a Center of Excellence (CoE), which carries out the systematic preservation of all insights gained while working with clients. It also develops and refines frameworks and processes. This helps to meet future business demands with quick and replicable solutions, which can be modified if required.

### Benefits

- Refines and cleanses data to provide quicker, smarter and effective business insights.
- Drives business objectives through measurable Key Performance Indicators to improve organizational performance and transparency.
- Data management and optimization assists in performance management to grow the business.
- Access to new and replicable Business Intelligence solutions which are the best for your business.

### Success story

→ Successfully implemented predictive modeling techniques to help an insurance company detect fraud in 3.5 million claims and processed more than USD 8 million in payments annually.

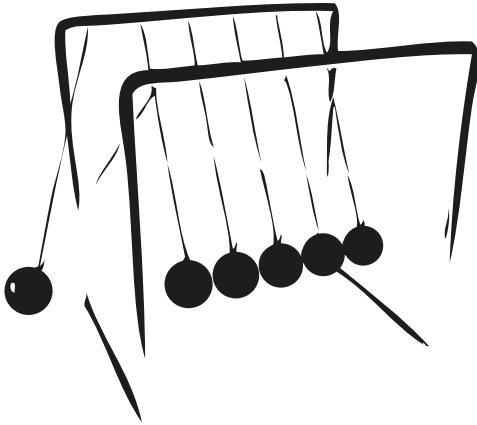

### Products

- **BI Report Centre** - an OLAP (online analytical processing) based reporting tool for SQL users. The tool enables users to easily create self-service reports
- **The Extract, Transform, Load (ETL) Center** - is a web-based interface that executes, controls and monitors various ETL processes using Microsoft SQL Server Integration Services (SSIS) technology.
- **Oracle Business Intelligence Enterprise Edition (OBIEE) Scorecard Components**
- **Claims BI**
- **Telecom BI**

# Quality Assurance (QA) – ensuring success

CIO's have to constantly ensure that the complex technology deployed matches business requirements, so that the implication of any kind of deviations, minimize their impact on business. Nuvento's Quality Assurance solutions and services are the answer to "how to make IT work."

Consulting services	Managed services	Specialized services
<ul style="list-style-type: none"> <li>• Test Process Assessment Services (TEPAS)</li> <li>• Open Source Process Implementation Services</li> <li>• V&amp;V Point Solutions</li> <li>• Risk based Testing Model</li> <li>• Test Strategy and Roadmap Services</li> <li>• Strategic Test Reporting and Analysis</li> </ul>	<ul style="list-style-type: none"> <li>• Outsourced QA Services</li> <li>• QA on demand Services</li> <li>• Application Testing Services</li> <li>• Migration Services (WinRunner to QTP)</li> <li>• QA Project Management Services</li> <li>• Change Management Services</li> </ul>	<ul style="list-style-type: none"> <li>• BI Testing Services</li> <li>• Test Automation Services</li> <li>• Unit Testing Services</li> <li>• Performance Testing Services</li> <li>• Domain specific testing services</li> </ul>

## Products
